

MoDOT Fall Work Zones

Labor Day 2005 Through December 31, 2005

Smoother, safer highways are on the way...but motorists will drive through more work zones than ever this year in Missouri. That's because MoDOT is planning a record number of improvement projects thanks to voter approval of Amendment 3. This list details the MoDOT highway construction projects that will be under way from Labor Day 2005 through the end of 2005. Motorists can call MoDOT toll-free at **1-888 ASK MODOT (275-6636)** or visit **www.modot.org** for daily lane closure information.
